

HP for Education

£25,000 award for your school with HP Community Tech Fund

Over the coming year, your school could be one of four schools to be rewarded with a £25,000 technology fund from HP. To enter the competition, all you need to do is to tell us how your school would benefit from a £25,000 investment in education products and services from HP.

Winning entries will be chosen by an industry judging panel and one school will be awarded a £25,000 technology fund each quarter. The fund will be added to the winning school's HP for Education wallet to spend with HP's Specialist Education Partners.

What is the HP Community Tech Challenge?

HP wants to encourage schools to collaborate with their communities and help the environment by trading-in unwanted devices for recycling.

Ask your pupils and parents, teachers, local businesses, members of the community and help to give old devices a new lease of life, and reduce the environmental impact of disposal.

What can my school win?

In return for the community trade-in, HP will be giving four participating schools £25,000 to invest in their school.

The fund can be spent on Technology products, software and a range of consultancy, e-learning and training services provided by HP specialist education service providers.

How do I enter my school?

The very best educational technology can empower educators to deliver powerful immersive learning experiences to their students.

How would you spend £25,000 to empower educators in your school? Let us know today at nominations@hptechfund.com and your school could be the next lucky winner of the HP Technology Fund.
