

SM-MM SecurityXtra Security Mount for Mac Mini

HD-CK Heavy Duty Cable Kit

This space-saving solution securely mounts your Apple Mac mini on or under a desk, or onto the back of a monitor.

The Security Mount for Mac Mini is a discreet, high-security mount for the Mac mini, constructed of 3mm hardened steel and powder coated in silver to match the device. The mount allows full cable access, full ventilation and prevents memory theft.

Featuring a built in security slot and comes with its own high security lock and security shroud.

If mounting to the rear of a monitor an optional 9mm diameter security cable can be provided to tether the unit and monitor to the desk.

- Can fix to the rear of a monitor via VESA fixings
- Can be mounted on or under the desk
- 3mm hardened steel
- Powder coated silver to match device
- Built in security slot to take most conventional laptop cables
- Allows full cable access and full ventilation
- Can be tethered with a Heavy Duty Cable Kit (sold separately)
