

SecurityXtra Security Stands for iMac

Sleek yet heavy-duty stand with dual function. Prevents your iMac or iMac Pro from being stolen, plus stabilises it on any desktop stopping any accidental tilts or falls.

The stand is constructed using 4mm hardened steel and comes fitted with an anti-tamper and anti-drill shrouded lock.

Permanently fixes to the desk yet allows the iMac to fully rotate. Or, if preferred, the iMac can be fixed in one position using a secondary fixing point.

- High-security solution for Apple iMac
- Two sizes to fit the 21.5" or 27" iMacs and iMac Pro
- Secured to the desk with single or dual fixing point
- Allows full rotation of iMac
- Constructed using 4mm hardened steel
- Anti-tamper, anti-drill lock
- Secures wired keyboard, mouse and power cables
- Available keyed alike or master keyed
